D. HECHINGER & CO

Our store in the past two weeks has been a veritable beehive; in fact, we experienced great difficulty to wait on our customers. We take occasion here to express our thanks to those who waited so patiently last Saturday until we found time to wait on them. Now, there is a cause for every effect. For \$10, \$12, \$15 and \$18 you buy Suits in our house that you cannot duplicate elsewhere.

Another thing that brings people who are particular as to what and how to wear clothes to us, is that we let nothing go out of our store unless we are satisfied it is "just right." In short, you make no mistake in having us to look after your needs in everything that goes to make up a gentleman's wardrobe.

Our Children's and Boys' Department is one of infinite satisfaction, both to parents and the youngsters; we please the first named in price and durability of the goods and we please the boys in style and fit. Our Hat and Shirt Departments are features in themselves. As for Shoes, we need but say that Hanan & Son's and W. L. Douglas are our leaders. We guarantee every pair we sell.

Have you seen our latest importation of Neckwear? It's worth your while to look at it. It will interest you. Notwithstanding the elegance of the goods, we sell them at the most popular price of 25 cents and 50 cents.

A GREAT SALE OF MUSLIN UNDERWEAR—No store is such a specialty store as the store that succeeds. Some people say that the reason we do such a large business is because we are on the RIGHT side of the street. There is no such thing as a store being on the wrong side of the street. You'll go across the street or around the corner to the place that does things best.

Rev. Wood Pogue Wants Law Against Anti-Biblical Marriages.

The Rev. Dr. James Wood Pogue, a former Mayville boy, now pastor of the Fifth Presbyterian Church at Cincinnati, says that Preachers are responsible for a large share of the evils applied for and granted nowadays, for they are too eager for wedding fees. They marry people whom they have no business to marry. Catholics and Episcopalians won't do it, and they form over half of the Church world.

To marry divorcees is to do something for which no authority can be found in the Bible.

Marrying runaway couples is another way, he says, in which Preachers are promoting the sin and evil of divorce. Divorcees commonly result from such marriages.

Still another way in which Preachers err, he says, according to the Bible, is in marrying unbelievers to believers. Ministers should do less marrying for fees and more for Christianity.

He wants a law passed prohibiting marriages for which the Bible gives no authority.

A MEAGER CROWD.

The Outlook For a Successful Meeting at Lexington Disappointing—May Be a Free Gate.

Lexington, May 15.—The racing at Lexington was run off before a meager crowd and the outlook for a successful meeting for Tuesday, which was the main feature, that there will be a free gate Wednesday, but it has not been definitely decided at the close of racing Tuesday. There is a Western Jockey Club against a free gate and the Lexington folks will have to get permission from the other members of association before they can invite the public to come in gratis. This will be a counter move against Newport and is the second big fire in the local turf war.

The racing today was devoid of features. The overthrow of Andy Williams in the second race was disastrous to his many admirers. Only one favorite, Farrell, was successful.

CHINESE WILL PAY.

The Indemnity Demanded by the Powers Will Be Liquidated in Thirty Years.

THE PLENIPOTENTIARIES' RESPONSE.

The Annual Payment of \$10,000,000 is the Extent of Their Power to Discharge the Debt.

Mr. Rockhill Has Been Instructed to Continue His Efforts to Secure an Abatement of the Total Amount Asked.

Washington, May 15.—A cablegram from Mr. Rockhill, special United States Commissioner in Peking, received at the state department Tuesday, mentions the receipt by the ministers of the response of the Chinese envoys to the note of the plenipotentiaries. The dispatch indicates briefly that the Chinese represent that an annual payment of \$10,000,000 is the full extent of their power to pay on indemnity account. It will take 30 years to discharge the debt at that rate, without interest. Mr. Rockhill makes no estimate of the indemnity, but interest does he touch upon the means by which the money is to be raised by China, or any who is to guarantee a loan necessary to be made. It appears that the Chinese feel themselves obliged to submit to the powers in this question of indemnity, as in other things, and through realizing their own inability to assume the indebtedness of 450,000,000 taels, they feel obliged to make the effort. Mr. Rockhill has been instructed to continue his efforts to secure an abatement of the total indemnity, but in the present disposition of the powers little hope is shown in this matter.
